

Atomic80 Limited

Environmental Policy

Atomic80 Limited is committed to minimising the impact of its business activities on the environment.

Key strategies for minimising our environmental impact are:

- Meet or exceed all local environmental legislation.
- Monitor consumption of materials, energy and water to ensure its operations they are undertaken as effectively and efficiently as possible.
- Where reasonably practicable source products to minimise whole life environmental impact including production, distribution, use and disposal.
- Promote the reuse of materials having regard for fire, health and safety, and company image.
- Promote, so far is reasonably practicable, recycling of waste materials.
- Use public transport in preference to a motor vehicle where reasonably practicable.
- Use the rail network in preference to air transport where reasonably practicable.
- Encourage staff to use public transport or share the use of a motor vehicle for journeys to and from work.
- Where reasonably practicable provide clients with an environmentally friendly alternative to any proposed works.
- Promote environmental awareness within the company.
- Encourage staff to participate in the development of the company's environmental strategy.
